

Welcome to the next
REVOLUTION in green building
HEMPCRETE: a sustainable insulation and building product

You are invited

HEMPCRETE INFORMATION EVENING

Presented by Hempcrete Australia's Director **Johan Tijssen**

HEMPCRETE has no equal as a natural building product

*Hempcrete buildings
have excellent insulation
properties*

They provide energy
savings of **50-70%** for
the consumer and the
environment!

*Come along to speak to the
experts, **and** be the 1st in
Australia to view the movie:
'Bringing it Home'*

WHY BUILD WITH HEMPCRETE?

- Cyclone resistant
- High thermal insulation
- Fire resistant
- Termite & mould resistant
- Breathable walls
- Negative carbon footprint
- CO² sequestration
- Healthy living environment
- Design flexibility
- Good acoustic performance

8pm - 8:30 Questions & Answers

WHERE: Tropical North Queensland
TAFE Eureka St, Cairns QLD
Campus location TBC (see Facebook)

MOVIE: Students/concession \$5
Adults \$10

AUSTRALIAN PREMIER SCREENING

BRINGING IT HOME

a documentary about industrial HEMP, healthy houses and a greener future for America

ABOUT THE FILM: A father's search to find the healthiest building materials leads him to the completion of the nation's first hemp house. Hemp with lime is a non-toxic, energy efficient, mildew, fire and pest resistant building material.

BRINGING IT HOME tells the story of hemp:

past, present and future and a global industry that includes textiles, building materials, food products, bio-plastics, auto parts and more.
